## Dartmoor Otters & Buckfast Butterflies

A friendly south Devon attraction, ideal for a family day out

Enjoy and learn about the tropical butterflies in their specially designed habitat as you feel the rainforest atmosphere that they enjoy, and experience their amazing life cycle unfold.

In the Otter Sanctuary there are three species of otter to see, our native British otters, the playful Asian short clawed otters and the large North American river otters who love to show off. Their keeper is on hand to explain all about the otters to visitors: some are here for breeding, some for retirement, some just for fun and some because they are unsuitable to be returned to the wild.

This unique attraction is a hidden gem.

Just the ticket!

Come and experience the best of unspoilt Devon on the multi-award winning South Devon Railway. Your historic steam train hugs the beautiful River Dart all the way between Buckfastleigh and Totnes on this former Great Western Railway branch line.

Take a step back into the past on a real steam train and enjoy the fantastic views as you travel along the valley at a pace you can actually enjoy!

Plus, you can visit the gardens and picnic area, Refreshment Rooms, gift shop, museum, fascinating steam railway workshops and a whole lot more besides!

It's a great adventure everyone will remember.

## Totnes Rare Breeds Farm

The very hands-on experience!

Have you ever fed a red squirrel? Touched one? At Totnes Rare Breeds, they will (literally) throw themselves at you for a peanut.

You won't find smaller sheep than our Ouessants or more fantastic chickens. You can also get close to the endangered wildlife of the English countryside, touch a hedgehog's prickly spines and learn how they use them, or admire the gripping pads on a red squirrel's foot. In our small animals' corner, you can hold a guinea pig, feel the smooth skin of our corn snake and watch the crazy antics of the chipmunks.

Wizard the eagle owl loves to put on a show and his eight feathered friends can be seen up close and stroked as you learn about the different species from our very knowledgeable volunteers.
