32	Bristol Beer Factory	Wild Ones	4.2		Wild Ones brings you a brand-new hop, not just to us at BBF but the world! Introducing Sabro, hailing from the mountains of New Mexico - a new hop which has been produced from a distinct sub-species of the hop family which has been growing wild in the mountains of New Mexico for the past million years. Sabro promises an intoxicating and complex blend of fruity, citrus flavours, distinct tangerine and coconut with hints of cedar, mint and cream. The anticipation for this neomexicana hop is real and the proof will be in the pouring. Wild Ones is the fourth beer in the Origin Series and the second part of the Evolution Stage showing two deeply related hops working in harmony. In each case we have chosen a classic or intriguing base hop and paired it with a second hop that has evolved directly from it. The two different hops in each beer share characteristics but where the evolved hop has heightened and additional characteristics.	Cask
